PROFESSIONAL SUMMARY

BCA graduate with hands-on experience in Excel, SQL, Power BI, and data visualization. Skilled in data cleaning, dashboard creation, reporting, and data analysis. Certified in Power BI and Data Analytics Essentials, with a passion for transforming raw business and workforce metrics into data-driven strategies.

TECHNICAL SKILLS

- **SQL:** Joins, Subqueries, GROUP BY, Aggregate Functions, MySQL
- **Power BI:** Dashboards, DAX, Power Query, Data Modeling, Custom Visuals
- **Excel:** Pivot Tables, Lookup Functions, Advanced Charts, Data Cleaning
- **Python:** Pandas, NumPy (Exploratory Data Analysis)
- **Web Tech & OS:** Windows, MS Office

PROJECTS

E-Commerce Sales Dashboard (Python & Power BI)

- Engineered an enterprise-level sales dashboard tracking an extensive volume of **120K total orders** and **117K units in total quantity**.
- Processed and cleaned online retail sales datasets using **Python** to build interactive visual pipelines.
- Generated executive insights tracking **83.31M in Total Sales** with an **Average Order Value (AOV) of 645.93**.
- Implemented geographic slicers isolating top revenue-generating hubs like Bengaluru and Hyderabad, alongside dynamic order status tracking.

Customer Churn Analysis Dashboard (Python & Power BI)

- Built an end-to-end retention tracking ecosystem for a subscriber base of **7,043 total customers**.
- Cleaned messy customer demographic records using **Python (Pandas)** and engineered features to evaluate a **26.54% churn rate**.

- Segmented high-risk populations to pinpoint **1,869 churned customers**, identifying that Month-to-Month contract types and Fiber Optic internet services were primary churn drivers.
- Developed interactive visualizations mapping tenure and average monthly charges of **64.76** to achieve a **73.46% overall retention rate**.

HR Analytics Dashboard (Python & Power BI)

- Designed a workforce monitoring dashboard using **Python** for data preparation and **Power BI** to track organizational health indicators for **1K total employees**.
- Created DAX measures to compute a **16.12% employee attrition rate** and map **237 total departures**.
- Analyzed turnover trends against an average employee age of **36.92** and an average monthly income of **6.50K**.
- Structured breakdown charts isolating specific attrition volumes across roles like Laboratory Technicians and Sales Executives to drive executive retention planning.

Sales Analytics Dashboard (Power BI)

- Developed a high-impact retail dashboard to track financial metrics and seasonal performance over **9.994K total orders**.
- Modeled transactional datasets to deliver clean high-level views of **2.30M in Total Sales** and **286.40K in Total Profit**.
- Integrated multi-layered dynamic filters highlighting Technology as the leading category, contributing to **36.4% of total sales** (836.15K).

Netflix Analytics Dashboard (Power BI)

- Structured a content optimization catalog mapping a massive entertainment database of **8.809K total titles**.
- Segmented production volumes to display distribution trends between **6.131K movies** and **2.676K TV shows**.

Student Performance Analysis (Excel)

- Applied advanced formulas, conditional formatting, and pivot tables to visualize student performance metrics and identify academic progress trends.

CERTIFICATIONS

- **Data Analytics Essentials** – Cisco Networking Academy
- **Power BI Certification** – Infosys Springboard

EDUCATION

- **Bachelor of Computer Applications (BCA)**
Maharana Pratap College of Professional Studies, Kanpur
Graduation Year: 2026

SOFT SKILLS

Communication, Problem Solving, Analytical Thinking, Teamwork, Adaptability, Time Management.
